

Middle Child

An Autobiography

Kyle Paul Alonsagay was born on a Tuesday night on the 28th day of January 2003. He weighed about 3kg when he came out from his mother's womb. He was born in the City of Makati and grew up in Bacoar, Cavite. He was named after St. Paul the Apostle. His loving parents' names are Peter and Sally. His father is a seaman, and his mother is a nurse. His brothers' names are Kirk and Kier. The initials of his name KP, are the same as his 2 brothers. He is the second sibling. He is the middle child.

He attended Villa Cecilia Academy from kindergarten until sixth grade. He then transferred to St. Joseph's Academy in junior high and FEU Alabang in senior high. He is currently studying at Adamson University as a college freshman.

Kyle is an introverted kid. Sometimes he finds it hard to communicate with others, but he is approachable, kind, and friendly. He's just shy to talk first. He is very quiet and reserved that's why he hates activities like public speaking so much. It makes him nervous that his voice sounds shaky and sometimes his face turns red when he is about to speak.

When he was a kid, he was really into art. He likes drawing characters and stuff. He also wanted to be an architect or an artist. But as time passes, his interest in that field slowly fades. He became more interested in technology and computers. Now he is currently in college pursuing a bachelor's degree in information technology.

During his elementary and junior high school days, he was often bullied by his classmates and schoolmates. They tease him because of his skin color. He got used to it and got to the point that he does not even care at all whenever someone says something about him. He doesn't even hold a grudge against people who bullied him.

Kyle is a very simple man. He doesn't like to get things too complicated. He thinks that he is mediocre because he feels that he does not put a lot of effort into everything that he does, but he is doing his very best.

Things Kyle enjoy doing are playing video games, basketball, listening to music, watching movies or series, and sleeping. He also loves Marvel and of course, memes. His love for video games started when he first held the Gameboy and PSP. The first video games he ever played were Pokémon Fire Red, Tetris, and Ratchet and Clank. Up until now, he loves playing video games.

He also enjoys being with his friends. They would just chill at one friend's house, play video games, binge-watch movies, and share jokes and lots of laughter. He does not have a lot of friends, but he has the best ones. Even though they do not meet face-to-face, he is still in contact with them. They still do the things they do together but virtually since we are in a lockdown.

Now that we are in a pandemic, Kyle just stays at home to prevent the virus. Although the online class is kind of difficult, he tries his best to cope with the new normal and studies hard to have a better future. He hopes to become an IT professional someday.
